# Playing with Watercolor

with Guest Facilitator  
**Amy Everett**

Learn how to let the paint *do its own thing* with this unique form of painting!

We'll start out learning about all the odd quirks that make watercolor paint unique, and then go on to use common household items to create fabulous textures, as well as combining watercolor with other art media to further enhance your art. We'll be focusing on fun, experimentation and learning new skills each class!

## About the Guest Facilitator Artist

Amy Everett is a lifetime artist and professional graphic designer. Diagnosed with MS in 2006 and finding the Disability Network shortly afterwards, art has always provided a wonderful escape for her. She hopes you'll enjoy the experimentation process and love the unexpected creations we'll discover together in this workshop series.

During Studio Be: Guided Sessions  
Thursdays, 1:00–3:00pm  
Disability Network – Washtenaw Office

Series Dates:  
6/5 • 6/12 • 6/19 • 6/26

**REGISTRATION REQUIRED.**
