EMERGING VOICES

Digital Media
for Change

Two innovative studio workshops
blending art, technology, and advocacy!

We'll help young people with disabilities be empowered to share their stories, and advocate for the changes they want to see in the world. Participants will learn about:

- Disability history
- How creative works can inspire change
- How to use digital tools like **Canva** and **social media** to craft and amplify your message

Accommodations, tablets and/or other pieces of assistive technology will be provided to ensure equal access to our digital tools.

Wednesday, April 8 & Wednesday, April 22
4:00 - 7:00 PM
