PEERLY SOCIAL

Looking to explore the community with new friends?

Peerly Social is a seasonal event for disabled adults to connect, build friendships, and discover exciting places in our community *together!*

We organize the event; attendees are responsible for transportation and costs.

HOW IT WORKS

DNWML will organize each outing and provide the opportunity to connect with peers. Attendees are responsible for their own transportation to and from the event, as well as the cost of the activity.

Join us and meet people, try something new, and make your next adventure a little more social!
